Performance Shocks

Heavy-duty, twin tube construction protects inner shock from damage due to dents

Low pressure nitrogen gas charging eliminates foaming of oil

SSV Speed Smart Valve adjusts automatically for "on-the-fly" ride control

Coil-spring valving offers most reliability under constant use and heat build up

Hardened chromed and polished piston rods

SSV, or Speed Smart Valving means automatic, internal adjustments to shock valving as road conditions change. Under off-road conditions, the speed smart valve automatically closes providing firmer dampening and safer handling.

- Tough Platinum Gray finish
- Large 2-3/8" diameter cylinders

POWER SLOT Performance Brake Rotors

Brightly plated - Power Slot brake rotors eliminate rusty rotor syndrome, enhance custom wheel appearance and are a safer, more efficient alternative to crack-prone cross-drilling. Developed to beat the challenges of high performance driving and severe duty brake demands, Power Slot rotors run cooler, extend brake life and significantly improve wet and dry brake performance.

Trim Product Manufacturers

- Incredibly Thinner; An exceptional factory installed look. The edges almost disappear
- Far More Flexible; Greater coverage of contours and much easier to install.
- Gem-Flex™ Poly Finish; Clearly the next generation in finishes. Eliminates cracking, peeling and yellowing
- 3M "primerless" tape is thinner and eliminates the need for time-consuming primer application
- No adhesive Backing to Remove; Another outstanding time saver. Simply lift and apply
- Repositionable; The new 3M primerless tape means that the pieces can be reinstalled to insure a perfect fit

Flat & Molded styles available. Most Full and Mid Size applications are available by special order only. Please include exact make and color when ordering
