ADJUSTABLE TRACK BARS

The track bar locates the body/frame in relation to the front axle. It runs from the axle to the frame. When a vehicle is lifted it shortens the effective length of the track bar, which causes the axle to shift over to one side. Our adjustable track bar replaces the factory bar and incorporates a threaded adjuster to center the axle under the vehicle.

TOKICO TREKMASTER SERIES

TOKICO's TREKMASTER shocks have the same sophisticated design and damping curve flexibility found in the HP Series. In addition, the Trekmaster utilizes a new deflective disc bottom valve that results in an incredible combination of handling, stability, traction, and ride quality not experienced with other truck shocks.

Rancho offers the industries most complete line of performance shock coverage. Extended length shock absorbers now available w/ 13, 14, 15 inches of travel.

CLUTCHES

- 90% more holding capacity
- Great for Jeep® vehicles with tall tires
- Offers smooth engagement, maintaining total driver control

Designed for high horsepower—high torque applications. Dual Friction Clutches utilize two different disc lining materials. One side of the disc is lined with a thermal resin compound to endure extreme temperatures while the flip side has a facing that provides optimum low speed, low temperature engagement characteristics.

SAILCLOTH REPLACE-A-TOP™

Multi-ply fabric, the Sailcloth Replace-A-Top reflects road sounds, absorbs wind noise, and prevents buffeting to create a silencing effect that absolutely must be heard to be believed. In addition, the beefier Sailcloth fabric resists temperature induced shrinkage, making cold-weather installations much easier. It also shows fewer waves and wrinkles, and cleans more easily than conventional tops.

Rugged Ridge™

FABRIC REPLACEMENT TOPS

- Fade resistant marine grade, wick-stop thread - Seals the stitch holes, lasts longer and keeps it's color longer. No other soft top manufacturer uses this high quality thread
- Rugged Ridge uses self correcting zippers on all their door windows. Zippers run smoother and last longer - extremely important on those heavily used door windows
- Rugged Ridge uses a special seal in the belt rails. This seal lasts longer and looks better than all other replacement soft tops.
- Easier to use, better looking design that is built to last
- Kits include fabric/glass only. Original equipment soft top hardware required for installation
- 2 Year Limited Warranty

SAND ROCK STREET

These heavy-duty bumpers and side bars are designed with the serious off-roader in mind, but also a great dress-up for the street. Durable powder coat painted 2" tubes or 1 1/4" steel plate protects vehicle front end from those large obstacles. SRS bumpers feature tapered ends for extreme approach and departure angles, and for greater tire travel. Available in Textured Black. Adding the SRS tire carrier to the rear bumper takes the load off the tailgate and is the perfect complement to oversized tires.
